## HAPPY VALENTINE'S DAY!!!

**Valentine's Day and classroom parties are quickly approaching! Classroom parties will be on Friday, February 13th around snack time!**

**Check with your child's teacher for exact party times as well as sign up sheets for the classroom!**

### Happy Valentine's Day!

#### Pre K is participating in Hearts Across America

The Pre-K class is working on a fun Valentine's project by collecting hearts from states across the U.S.! Each valentine received will be marked on a classroom map. If you know friends or family who would like to help us fill our map, our Pre-K students would be thrilled to receive a valentine.

Send to:  
Ms. Lisa Smith's Pre-K Class  
113 E. 1st Street  
New Berlin, IL 6267

Our classrooms have been filled with creativity as the children explore art, sensory activities, and imaginative play. These experiences encourage self-expression, problem-solving, and fine motor development—all while having fun!

## Children At Work

# Snow Much Fun!

## Scholastic Book Club

At Kountry Kids, we believe a love of reading starts early—beginning at birth through

special moments shared between parents and children. Reading to infants and toddlers helps build language and listening skills, strengthens early brain development, and supports social-emotional growth by creating a sense of comfort and connection. These shared reading experiences also help expand vocabulary and spark curiosity about the world around them.

We are proud to support Scholastic Book Clubs, which in turn help provide books for our classrooms. Every purchase helps your child's teacher earn new books while also giving you meaningful, screen-free bonding time at home.

## Did you know?

### Fun Facts about groundhogs:

1. A baby groundhog is called a pup.
2. Groundhogs are known for digging huge burrows to live in, and they can move up to 700 pounds of soil to create their home.
3. groundhogs can also climb trees when they want to.
4. The most famous groundhog on Groundhog Day is Punxsutawney Phil, who lives in Punxsutawney, Pennsylvania
5. It turns out groundhogs are not very good at predicting weather — the most famous Groundhog Day predictor is only right about 39 percent of the time!
